Aug 21, 2024-Aug 28, 2024, Nicaragua

Cost: pre vet: \$2250
Includes registration fees, station/ program fees, three meals a day at the field site, room & board at our facility, chartered transport and day trips, 2 hotel nights (shared rooms). Does not include credits, airfare, nor arrival and departure meals or hotel rooms. Does not cover optional side trip (\$150) or hotel nights before or after class.

Location Costa Rica: The clinic is located at La Suerte Biological Field station a protected Sanctuary operated by the Maderas Rainforest Conservancy 501 (c) (3). Field studies have been ongoing at the site for 25 years.

Participation:
Designed for pre-veterinary students in their undergraduate studies. Students will learn about veterinary medicine in a developing country. Along with locals vets, the class will be helping animals in need of medical attention and offer services to horses, cattle, dogs, cats and other animals. Course will cover basic clinical information about diagnostics and treatments including basic veterinary skills such as parasitological surveys, blood work, physical exams and more. Get hands-on experience.

@mrconservancy @maderasATV
@Maderasrainforestconservancy

Services offered to the communities will be funded fully by tuition.

Location Guatemala: Antigua Guatemala
Location Nicaragua: Esteli, Nicaragua

Maderas Rainforest Conservancy is a 501 (c) (3) non profit Organization.
